What are Chakras?

7. The Crown Chakra

6. The Third Eye Chakra

5. The Throat Chakra

4. The Heart Chakra

3. The Solar Plexus Chakra

2. The Sacral Chakra

1. The Base/Root Chakra

I want to keep this book absolutely fluff free, so, I will not talk about how Chakras are the metaphysical entities that are essential for spiritual awakening and how they take you closer to The Divine One and keep you at peace. All I want to do is to make you understand that by awakening and balancing your Chakras you will achieve everlasting health, physically and emotionally and that this book is the best Medical Insurance you ever bought!

“Energy can neither be created nor can it be destroyed, it only changes from one form to another.”

The Human body needs energy to sustain life, this essential energy is obtained in two ways:

The Physical mode – The food we consume and the air we breathe cause a physical combustion of food and the assimilation of essential nutrients which provide us with the energy we need for survival.

The Meta-physical mode – The Omnipresent Universal Life energy is absorbed or channeled into our body.

This Universal Life energy enters the human body at Seven specific points, located on the spine, these points are THE CHAKRAS.

Simply put, The Seven Chakras are the inlet energy taps of the human body.

All these Chakras are associated with certain Glands and Vital Organs and the energy entering the Chakras is lead to them for proper functioning and nourishment.

If a Chakra is Closed, Blocked or Un-Balanced then these Vital Organs and Glands are malnourished leading to further complications and diseases. (Both on a physical and meta-physical level)

For example: If The Anahat Chakra (The Heart Chakra) is blocked or unbalanced then the person is prone to cardiovascular disorders and also to emotional instability.

Here's an interesting scenario.

Imagine that there is a small self-sufficient 'city', and it is divided into seven 'Blocks'.

Each of these block, has a windmill which produces the electricity required by the residents of the particular block.

Now as long as those windmills are functioning properly, the city has power.

But, when one of those windmill malfunctions, the power in that block goes out and the resulting darkness begets crime and gives rise to anti-social elements within that block.

When this happens, the city tries to rectify it by supplying that block with power from the nearby block, which in turn results into power shortages in the next block too.

This creates a chain of power imbalance within the blocks and in a short time the whole city finds itself in chaos.

As you would have guessed by now,

The breath we take (also called as '*Prana*') is the wind energy that rotates the blades of the windmills.

The windmills are our 7 Chakras.

The city blocks represent the cluster of vital organs and glands which are under the influence of those Chakras.

And, the 'City' represents our entire body.

A person whose Chakras are awakened and in a balanced state will be in the best of his/her health.

Also, a consistent harmony between the Chakras will induce a feeling of prosperity, well-being and satisfaction. Such a person can only look forward to spiritual awakening and eternal bliss.

Now, let's get down to business, and awaken & balance your Chakras.

Forming a Routine

You should **NOT** perform all these 7 Guided Meditations back to back in one session.

At the most, practice 2 of these meditations on a given day.

Don't get me wrong, carefully read what I am writing below.

You can perform one single meditation, for any number of times in a day.

You can practice Root Chakra meditation for 10 times a day and it will be fine.

But DO NOT practice Root Chakra, Sacral Chakra and Manipur Chakra meditation on a single day together.

If you want, you can practice any two meditations on a given day, but not more than two.

Lastly, please don't come up with any excuses to avoid them, Meditation is an Easy, Effective and Effortless as Chakra Awakening and Balancing could get.
