

Cargo Boxes

- 5 cardboard boxes in a variety of sizes
- paint (recommend using colors from the main set)
- 1 paint roller (any size)
- 1 paint tray
- three 3" paintbrushes (a clean, dry brush for each color)
- 1 quart of light brown paint (to paint boxes)
- 8-ounce sample-size paint in tan, brown, and yellow
- dropcloth
- 1 roll clear packing tape
- Cargo Net*

Carefully take boxes apart at the seams. Turn the boxes inside out so no writing appears. Tape the boxes shut. With a very dry brush (barely dipped in paint and just the very end of the brush bristles), paint around the edges of the box with a dark color to create a frame. If you can't turn the box inside out, paint the box a light brown using the roller and then use a darker color to create the frame around the outer edges of the box.

2007-7B: Rustic Oak—brown

3004-7B: Lariat Tan—tan

3004-5B: Safari Sun—yellow
