

FELTED MINIBAG FOR KNITTING FRAMES

©Kathryn Doubrley 2005

www.theanswerlady.com

REQUIREMENTS:

1. 1 skein Lion Brand Landscapes yarn
2. Red Knifty Knitter or similar frame
3. Washer and dryer

KNIT THE BAG:

1. Cast on by e-wrapping twice around the frame, then knitting every stitch, (basic cast on)
2. Knit 24 rounds with the e-wrap stitch. This is the body of the bag
3. Bind off 15 stitches.
4. Knit back and forth on the remaining 16 stitches for 16 rows. (photo)
5. Bind off. (Last 16 rows have formed the flap of the bag)
6. Sew cast on together to form bottom of bag. Make sure to flatten the bag before sewing the seam to be certain that flap will fall correctly

FELT THE BAG:

1. Run through the washing machine with other items. A front load washer and warm or hot water is preferred
2. Get the bag wetter and run through dryer for 30-40 minutes
3. When fabric is very tight, felting is complete. Air dry the rest of the way. This yarn is only half wool so the stitches will not entirely disappear

FINISH:

1. Trim yarn ends. After felting, they will not run or ravel. Also, edges won't roll.
2. Add a strap, a snap or a belt hanger
3. Tuck in your essentials! Bag is about 5"x6"
